At all times there was more or less nervousness regarding the conting bureau report in evidence, and this, together with the story that certain prominent local bears had reversed their position on the market enused a better feeling around the middle of the day. In the atternoon the rumor that the National Ginners' Association was out with a report on condition of 64 caused a sudden wave of 13710 condition. CHICAGO GRAIN MARKET.

CHICAGO. ILL. August 23.—Weak cables and continued liberal receipts in this country caused a fresh break in wheat prices on the Board of Trade to-day, but buying by shorts resulted in a recovery of almost all the lost. Corn and onts closed weak and provisions steady.

The wheat market was weak the greater part of the day, although the heaviness was interspersed with brief railes, due to buy a leading cash interest and local final hour, and the market closed fairly steady with all deliveries only a shade beliew the final figures of the previous day. Wet weather in many sections of the corn belt, which effectually broke the long-standing drought, caused a slump in corn prices. Talk of increased receipts in the near future caused a ½@Le, decline in cash prices, and in turn weakened the options. The close was weak with prices ½@½e, below yesterday's final quotations.

Trade in oats was extremely active, and sentiment in the pit was bearish throughout the entire day. Several of the leading commission houses were free sellers. The close was easy with prices ½@½e, to ½e. lower.

Provisions were moderately firm early in

## On Foreign Exchanges

LONDON, August 25.—Money was in quiet demand on the market to-day, and discounts were firm.

On the Stock Exchange business was somewhat slacker at irregular prices. Grand Trunk was supported on the crop reports and good traffic returns. Russian, Japanese and Argentine bonds received good attention at advanced prices, but Kaffirs lost their early improvement under Paris selling, while gilt-edged securities were affected by the Continental inquiry for gold. American securities opened weak, and later the market became irregular. At noon the tone was dull, with prices from 7-8 above to 3-8 below yesterday's New York closing. Disappointment that there was no increase in the Harriman dividends caused the market to droop. Then in the afternoon Wall Street offered stocks freely; the leading issues fell from 1 to 3 points, and the market closed weak.

BERLIN, August 25.—The weekly statement of the Imperial Bank of Germany shows the following changes: Cash in hand increased 27,855,000 Loans decreased 3,312,000 marks.

Discounts decreased 37,298,000 marks. Treasury bills decreased 35,994 marks. Notes in circulation decreased 28,114,-000 marks.
Deposits increased 154,000 marks.
Gold in hand increased 24,837,000 marks.
